

Abington SPED PAC

Did You Know? Email Distribution

While we have meetings every other month, many times there is information available about special events, parent training sessions, group discussions etc. that needs to be communicated in a more timely fashion. To help parents, guardians and family members with caring for their child(ren) with special needs, we would like to establish an email distribution that will be used to disseminate information on programs and services that might be of interest. To be included in this email distribution please give your contact information to Inga Wronski at i.wronski@att.net. If you would like to have information distributed to the group, please contact Inga Wronski as well.

Future Events

We look forward to seeing everyone in the fall at our next formal meeting. A flyer will be sent home in September announcing the date and time.

Resource Binder

A NOTE ABOUT THE ABINGTON SPED PAC

The Special Education Parent Advisory Council (SPED PAC) is a "knowledge based" organization that provides a forum for parents to connect with other parents and professionals who understand their particular needs and concerns. Attendance at these meetings/gatherings will gain you valuable "tips" from others who understand your challenges. It will equip you with a better understanding of the "IEP/Team Meeting" process and delivery of services children receive throughout the Abington Public School District. Please join us to have your questions answered and your voices heard all in an informal setting.
